

We Listened.

NewsBank's new, soon-to-be-released product—the direct result of helpful feedback from librarians and end users—features a host of new, use-driving features.

A-Z Source List
Quickly find sources by name, location, source type

Change Databases
Instantly access another available NewsBank product

Large Single Search Box
Provides an intuitive starting point

Suggested Topics
Easily explore information by subject

Quick Links
Jump to additional information including local news sources

Home Page, Public Libraries

NewsBank's new Advanced Search page helps users save time and generate more useful results.

Boolean Operators
Combine or exclude keywords for more focused results

Extra Search Boxes
Use additional terms to get more precise results

Sort Options
Choose how your search results will be organized and displayed

Select a Field
Limit search results to targeted subsets of information

Search by Map
Quickly and easily select sources based on location

The screenshot shows the NewsBank Advanced Search interface. At the top, there's a search bar with a dropdown for 'Select a Field (optional)' containing options like 'All Text', 'Lead/First Paragraph', 'Headline', 'Author/Byline', 'Section', 'Caption', 'Page', 'Source', 'Date(s)', 'Word Count', 'Readability/Lexile', and 'Added within'. Below the search bar are Boolean operators (AND, OR, NOT), an 'Enter any keyword' field, and a 'Sort by' dropdown with options 'Best Match', 'Newest', and 'Oldest'. A 'Search' button is also present. On the left, a list of sources is shown, categorized by state (e.g., USA - Alabama (38 Sources), USA - Alaska (18 Sources), etc.). In the center, a map of the United States is displayed with state abbreviations. At the bottom, there are buttons for 'USA', 'USA - Rhode Island', and 'America's News Magazines', along with a 'Providence Journal (RI)' button. The footer includes '©2017 NewsBank, Inc.', 'Contact Customer Service', 'Privacy Policy', and 'Terms of Use'.

Advanced Search, Public Libraries

NewsBank's new integrated results screen enables users to explore different information formats at a glance

The screenshot shows the NewsBank search interface with the following elements:

- Alerts:** A callout bubble pointing to the search bar area, stating "Receive automated updates when relevant content is added to the database".
- Sort Options:** A callout bubble pointing to the left sidebar, stating "Choose how your search results will be organized and displayed".
- Bulk Actions:** A callout bubble pointing to a row of search results, stating "Email, print, save or cite multiple documents in a single step using the checkboxes".
- Using Your Results:** A callout bubble pointing to the top right of the results area, stating "Easily email, print, save or cite each relevant document".
- Highlighted Keyword:** A callout bubble pointing to a search result snippet, stating "Find your search term(s) quickly within a document".
- Navigators:** A callout bubble pointing to the left sidebar, stating "Refine search results instantly without leaving the results page".

The search results list includes various articles such as "Here's the exact time the eclipse will be visible in your city", "Eclipse This Week. Expeditions to Test Einstein Theory at Sun's Eclipse", "How to watch today's solar eclipse", "Total Eclipse Of Sun Occurs Tomorrow; Will Be Visible In Utah As Partial Eclipse", "News Article", "Stunning lunar eclipse will be seen across much of North America early Wednesday", "News Article", "The Moon Was In Eclipse Last Night and the Eclipse Was Visible Here. It Occurred", and "The next Eclipse. It Will be Invisible in San".

Search Results, Public Libraries

NewsBank's new document view makes it easier for users to access and utilize relevant content needed for their research.

The image shows a screenshot of the NewsBank website's document view interface. The page displays a news article from the Billings Gazette, dated September 28, 2017, titled "Montana State University students now have to analyze crush of solar eclipse data". The article text is centered on the page with a wide margin. Four callout boxes are overlaid on the screenshot:

- Cite**: Select, save, and export citations in a variety of formats.
- Actions**: Easily save, print, link to, or email relevant documents.
- Font Size**: Instantly adjust font size to improve readability.
- Legibility**: Page width designed for optimal viewing/reading.

The interface includes a top navigation bar with "America's News" and "NewsBank" logos, a search bar, and a "Change Databases" dropdown. Below the navigation bar, there are icons for font size adjustment, print, and email. The article text includes several paragraphs and quotes from participants in the solar eclipse study.
